Installing the Ridder Inspirience Center	
Memo by	<a href="mailto:Marketing@ridder.com">Marketing@ridder.com</a>
Addressed to	Partners, users of the Ridder Inspirience
Subject	Installing the Ridder Inspirience Center
Date	June 15th
Enclosures	ridder-inspirience-offline-tour.zip
Required action(s)	<ol style="list-style-type: none"> <li>1. Download documents</li> <li>2. Read instructions</li> <li>3. Install and test</li> </ol>

## 1. Download documents

If you are logged into the website and if you have the authorization for 'saleskit', you see the following:

### Ridder Inspirience Center

All Ridder solutions come together in the Ridder Inspirience Center. It offers potential customers an inspiring environment to get acquainted with Ridder's solutions. The Inspirience Center can run on any laptop and is an important tool for example at trade fairs and exhibitions. You can download the complete Inspirience center here, including a short instruction for installation for proper functioning.

-  instructions-inspirience-offline-tour.pdf
-  ridder-inspirience-offline-tour.zip

Download both documents.

**Note:** the download of the Inspirience Center may take a while because it is a file of more than 1.0 Gb

## 2. Read instructions

Carefully read the instructions in the document 'instructions-inspirience-offline-tour.pdf'. Installation is very easy and the Inspirience should function on Windows-machines. For Apple users it is better to use the online version of the Inspirience Center on our website.

## 3. Install and test

1. You downloaded the file ridder-inspirience-offline-tour.zip.
2. Take this document out of your downloads.
3. The document is a zipped document, so start unzipping the document. Make sure you put the unzipped document on a local folder, not on a network folder or drive. After unpacking on this local folder you see the following files:

\_MACOSX

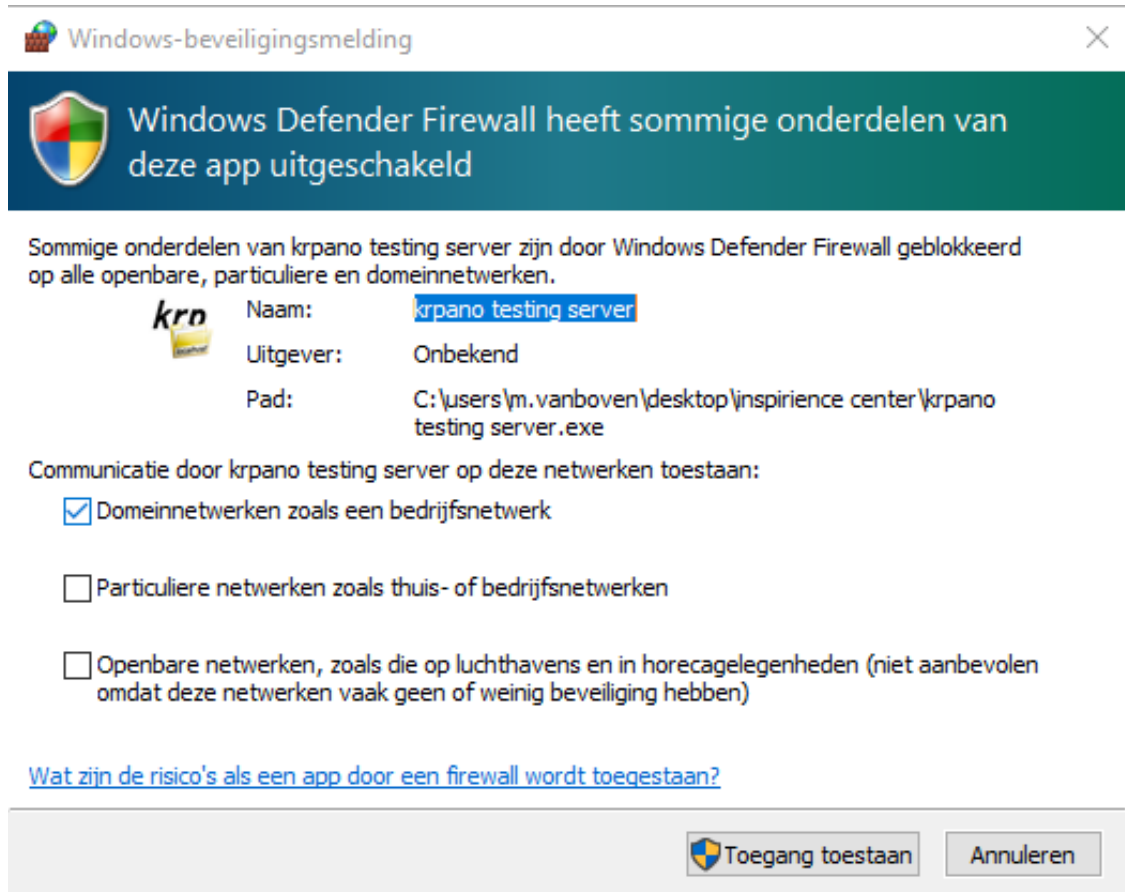

Tour offline  
versie 6-6-2018

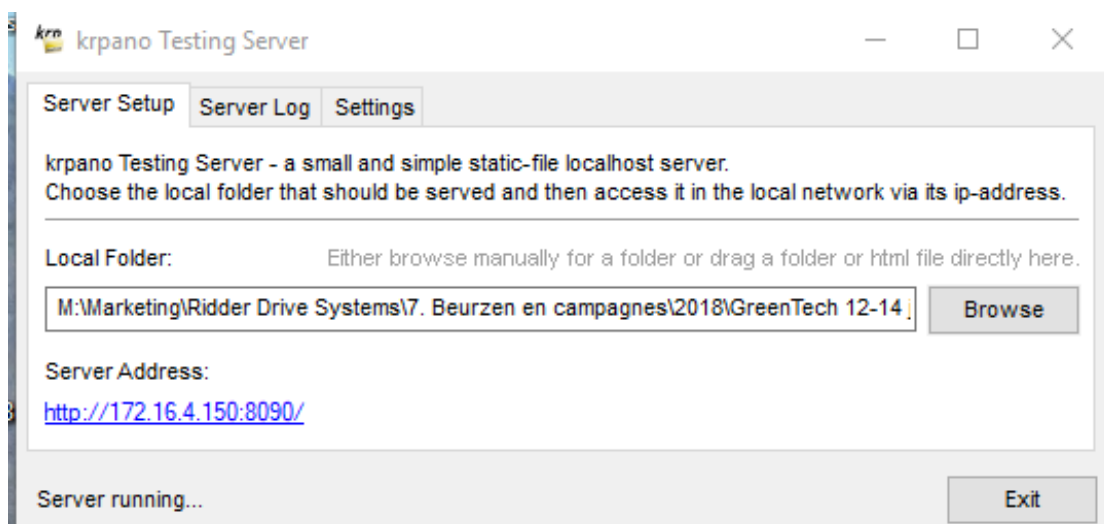

krpano Testing  
Server

## Memo

- Now you double click on 'krpano Testing Server'. Probably a window appears as below, because Windows does not know this software.

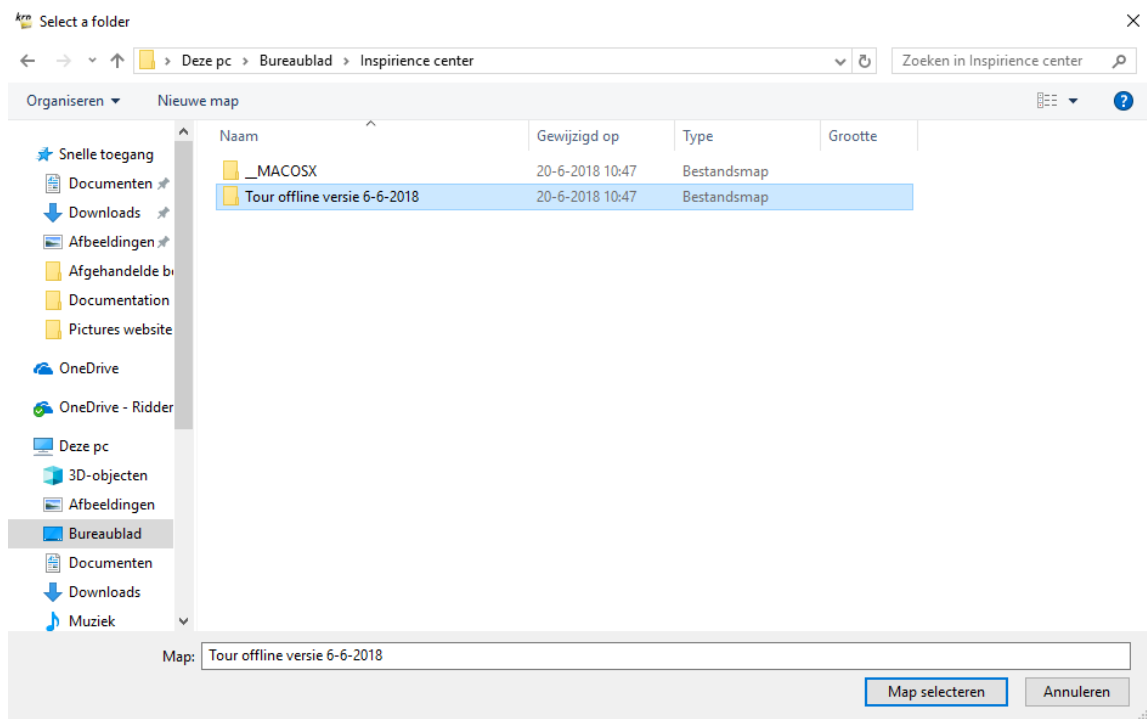

- You must '**Allow**' (don't cancel here) this software to be installed. It is secure software.
- Then a similar window appears like below (the local folder will differ and the server address)

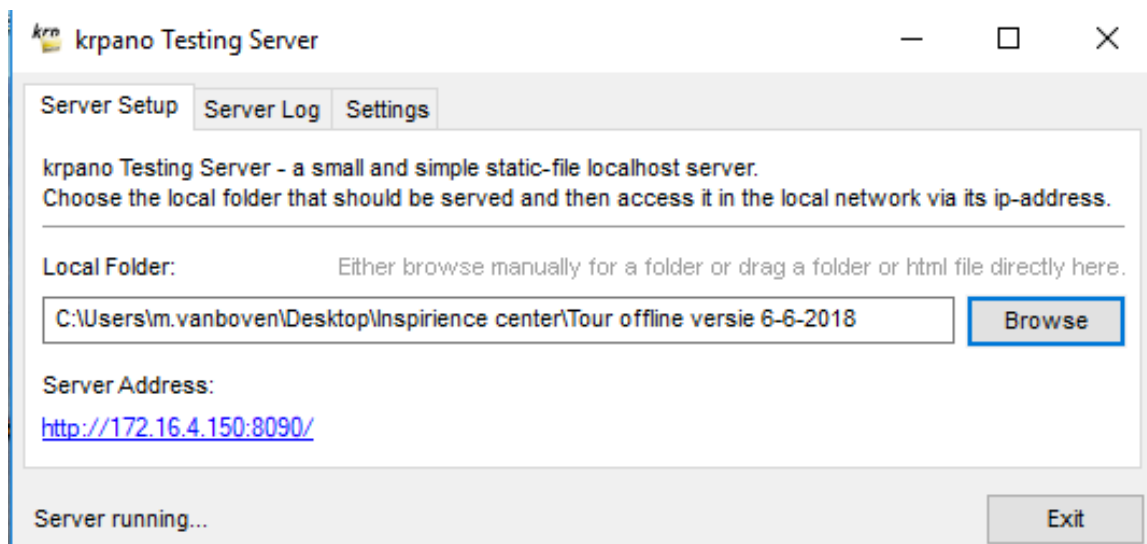

## Memo

- Now you need to browse to your local folder where you stored the insipience Center. There you select the 'Tour offline versie 6-6-2018'. See the example below:

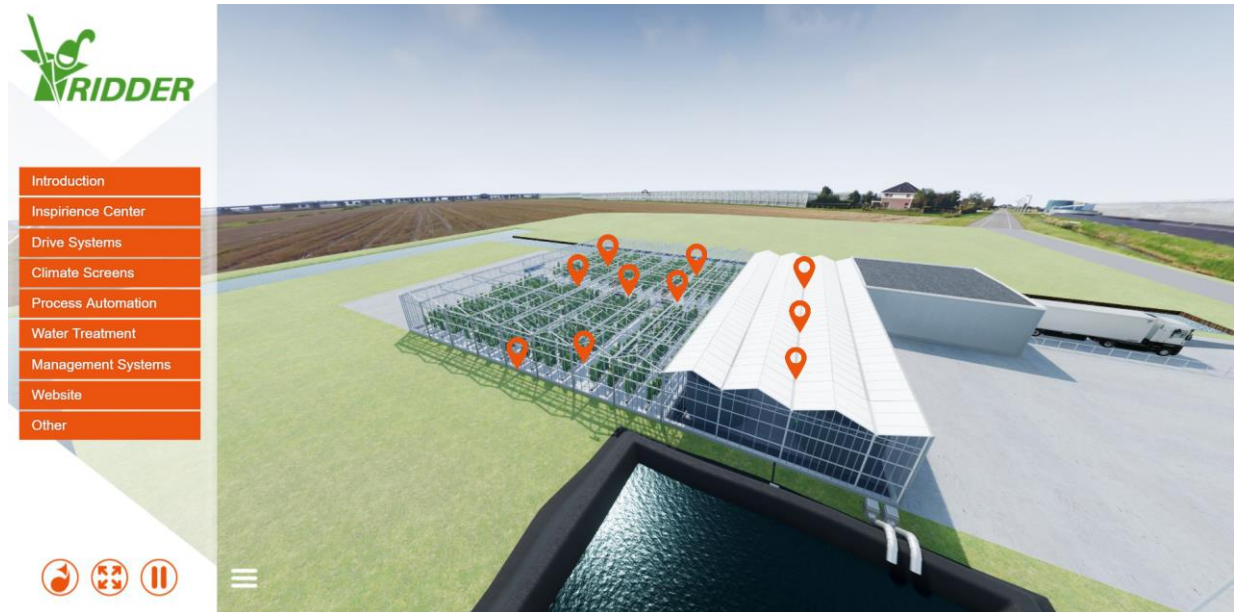

- Now the folder destination has been changed to your local situation (see example below):

## Memo

9. Now you can click on the server Address that is given on your computer. The Ridder Inspirience Center will start

10. You only will need to do this installation for the first time. The next time you start the Inspirience Center, just do the following:
- Start the krpano Testing Server
  - Click on the given Server (IP) Address
